

Harsha Kumari

harshakumari1125@gmail.com | +91-7250465929 | Bengaluru, India
Portfolio | LinkedIn | GitHub | LeetCode | CodeChef | GeeksforGeeks

Education

Ramaiah Institute of Technology, Bengaluru
B.Tech. in Electrical and Electronics Engineering

Nov 2022 – May 2026

Professional Experience

SDE Intern | Skypoint – Sky Command Platform – Bengaluru, India April 2026 – Present

Stack: Python, FastAPI, Databricks, ChromaDB, LangChain, LLM APIs, PySpark, React 19, TypeScript, PostgreSQL, Docker

- Architected **RESTful APIs** across 8+ FastAPI route modules handling end-to-end data flow for a production healthcare intelligence platform serving 500+ enterprise users.
- Engineered an **LLM-integrated agentic pipeline** on Databricks with row-level and column-level prompting, auto-generating glossary descriptions for 10,000+ database fields and reducing manual annotation effort by 90%.
- Introduced **parallel batch processing** for LLM inference replacing single-pass full-table execution; cut end-to-end pipeline latency by 65% and token overhead by 40%.
- Delivered a **full-stack enterprise analytics platform** (React 19, TypeScript, FastAPI, PostgreSQL) with 25+ visualization types, 6 filter categories, and AI-driven insights for 3 business units.
- Developed an **AI-powered deep research engine** using OpenAI GPT APIs to dynamically classify and connect to 50+ datasource platforms without pre-built connectors, reducing integration time from days to under 10 minutes.
- Implemented **real-time AI streaming** via SSE cutting perceived latency by 70%; integrated **ChromaDB + Databricks** semantic vector search boosting datasource classification accuracy across 14 categories by 35%.
- Established **multi-layer authentication** (JWT, MFA TOTP/QR, Redis sessions, OWASP standards) and Docker Compose orchestration for 3-tier services; delivered 10+ published enterprise dashboard templates.

UI/UX Intern | Confiable Technocraft – Remote

June 2025 – August 2025

- Developed a fully responsive website with modern UI/UX principles and interactive elements; integrated a chatbot and optimized overall performance. [Live Link](#)

Machine Learning Intern | National Institute of Technology, Rourkela

May 2024 – July 2024

- Spearheaded an enhanced **U-Net** with SE blocks and ASPP for biomedical feature extraction; applied Jaccard, Dice, and Focal Loss to resolve class imbalance, achieving **F1: 0.7613, Accuracy: 90.80%**, Dice: 0.6357 on histopathological datasets. [GitHub](#)

Technical Projects

Tic Tac Toe AI | Kotlin, XML [GitHub](#)

2024 – 2025

- Conceptualized and developed a Tic Tac Toe game implementing the **Minimax Algorithm** with **Alpha-Beta Pruning** for optimal AI decision-making; achieved a 70% improvement in game performance and computational efficiency.

Delicious Point – Food Delivery App | Kotlin, Firebase, XML [GitHub](#)

2023 – 2024

- Designed and implemented a user-friendly delivery application with features for menu browsing, order placement, and real-time order tracking; integrated **Firebase** for real-time database functionality and seamless user-to-delivery communication.

Technical Skills

Programming: Python, C/C++, Java, Kotlin, JavaScript, HTML/CSS, SQL

Backend & Frameworks: FastAPI, React 19, TypeScript, REST API Design, Agentic AI Pipelines, ETL

AI & Data: LangChain, LLM APIs (OpenAI GPT), Apache PySpark, Databricks, TensorFlow, Keras, Pandas, NumPy

Cloud & DevOps: AWS, Google Cloud Platform (GCP), Docker Compose, Databricks Jobs, Git, CI/CD, Android Studio

Databases & Vector Stores: PostgreSQL, MySQL, Firebase, ChromaDB, Redis

Concepts: OOP, DSA, DBMS, Operating Systems, Computer Networks, SDLC, OWASP Security, Agile/Scrum

Problem Solving: Ratings: GfG (Rank 10 in college), Codeforces (1442), CodeChef (1712, 3)

Achievements & Certifications

- Ranked 1st** in Junior Category, CodeRush Coding Challenge organized by AlgoUniversity. [Certificate](#)
- Rank 4** among 166 teams, Algotsav – NIT Rourkela's inter-college algorithmic competition. [Certificate](#)
- Rank 9** among 90+ teams, BMSCE Hackathon. [Certificate](#)
- Hall of Fame** – Graph Camp Contest (solved 3 problems). [Certificate](#)
- Global Rank 1498** in Google Kick Start Farewell Round – top percentile among 100,000+ participants.
- MathWorks Certified** – Image Processing [Certificate](#) and Machine Learning [Certificate](#) courses.
- Data Analytics** – Completed course in Data Analytics using MATLAB.
